

SELECTED WORK PORTFOLIO

BUILT ON PRECISION.
KNOWN FOR THE FINISH.

COMPANY PROFILE

Experience that shows in the finish.

More than 25 years of hands-on carpentry experience, delivered with precision, reliability and respect for the jobsite.

Carpenter on Demand LLC brings more than 25 years of practical finish-carpentry experience to residential, custom and multifamily work.

Much of the company's growth has come through referrals and long-standing professional relationships - a direct reflection of consistent workmanship, dependable execution and pride in the final result.

The details are where the work stands apart.

- Clean transitions and tight, controlled joints
- Thoughtful alignment across trim, panels and repeated elements
- Minimal visible fasteners and careful final presentation
- Consistent standards from production trim to one-of-a-kind millwork
- A finished result that looks intentional, refined and built to last

CAPABILITIES

A finish-carpentry partner for demanding projects.

Core production services and high-detail custom work, presented with the same commitment to quality and consistency.

SELECTED WORK

Coffered & specialty ceilings

Architectural ceiling treatments executed with careful proportion, alignment and finish.

Coffered ceiling detail

Recessed ceiling treatment

Geometric ceiling detail

Coffered ceiling & wall finish

SELECTED WORK

Wood ceilings & exposed beams

Natural wood applications that bring warmth, scale and architectural character.

Wood ceiling & beam detail

Exposed beam installation

Covered wood ceiling

Recessed kitchen ceiling

PROCESS

From preparation to completion

A vaulted wood ceiling developed in stages, with careful layout and installation supporting a clean final result

PREPARATION

Substrate preparation

The installation begins with layout, backing and carefully established reference lines.

INSTALLATION

Wood installation

Plank placement is coordinated across the slopes to maintain consistent direction and visual balance.

COMPLETED

Completed ceiling

The finished ceiling delivers a warm, continuous architectural surface that defines the room.

SELECTED WORK

Feature walls & wall molding

Detailed wall treatments that add depth, dimension and architectural interest to any space.

Picture frame wall molding

Classic picture frame molding adds structure and elegance, creating a timeless architectural look.

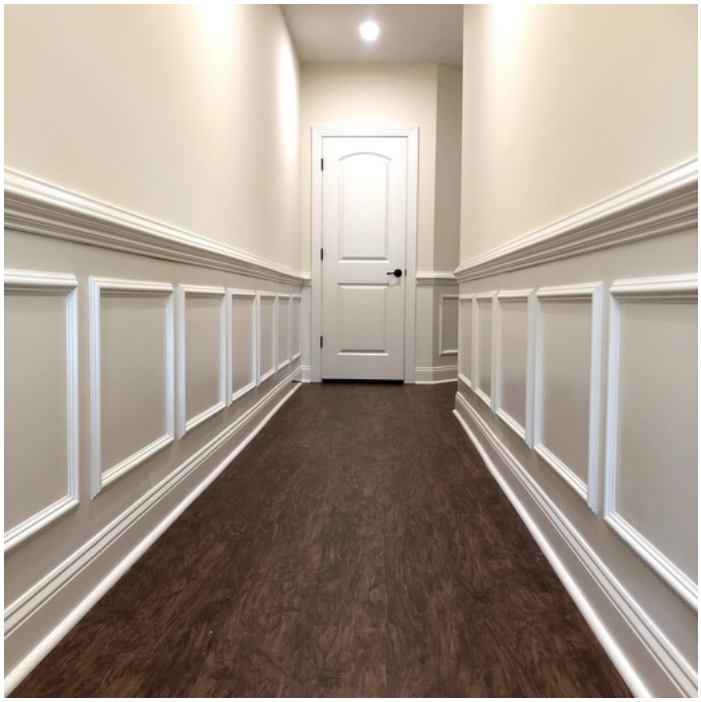

Shiplap Fireplace Wall

Horizontal shiplap creates a clean architectural backdrop and a refined finish around the fireplace.

Slat wall

Wood slat detailing creates a striking feature wall that adds texture and modern character.

Chair rail & wainscoting

Chair rail with wainscoting adds architectural interest while elevating the overall design.

SELECTED WORK

Stair & transitional millwork

Detailed stair components and transitions executed with clean alignment and a refined finish.

Stair wall paneling

Detailed wall molding brings architectural definition to the stair transition.

Detailed stair trim

Clean trim transitions frame the staircase with a precise, finished appearance.

Custom stair molding

Carefully aligned molding and finish details add character throughout the stairway.

Finished stair detail

Refined stair components and transitions create a cohesive architectural finish.

SELECTED WORK

Doors, casing & baseboards

Clean installations and precise trim details that bring consistency to every opening and transition.

French Door Installation

Interior French doors installed with clean casing lines and consistent reveals.

Custom Barn Door Installation

Custom barn door installation with exposed hardware and carefully finished surrounding trim.

Door, Window & Baseboard Trim

Coordinated door, window and baseboard trim completed with clean alignment and consistent finish.

Door, Casing & Baseboard Finish

Coordinated door casing and baseboard work completed with careful alignment and finish.

SELECTED WORK

Built-ins & custom storage

Purpose-built storage solutions designed for organization, function and a refined architectural finish.

Custom Shoe Storage

Built-in shoe storage designed to maximize organization while maintaining a clean, finished appearance.

Custom Shoe Storage Detail

A second view highlighting the storage layout, craftsmanship and practical use of space.

Custom Open Shelving

Architectural open shelving with integrated base storage, designed for display, organization and a clean finish.

Custom Mudroom Storage

Functional mudroom storage combines built-in organization with clean finish-carpentry details.

SELECTED WORK

Fireplace surrounds

Custom millwork and trim packages that frame fireplaces with clean architectural proportion.

Contemporary Fireplace Surround

Clean-lined millwork creates a refined architectural frame around the fireplace.

Fireplace & Media Wall

Integrated fireplace and media-wall trim bring structure and balance to the room.

Traditional Mantel Millwork

Detailed mantel millwork adds classic proportion and a finished focal point.

Stone Fireplace & Mantel

A custom mantel provides a crisp woodwork transition against the stone fireplace.

SELECTED WORK

Exterior wood structures

Custom exterior structures built with careful proportion, clean transitions and lasting visual impact.

Attached Pergola

Custom exterior structure integrated with the home for a clean, finished architectural transition.

Covered Pavilion

A finished outdoor structure combining shelter, proportion and detailed exterior carpentry.

Outdoor Kitchen Pergola

Pergola construction defines the outdoor cooking area while complementing the surrounding stonework.

Large Attached Pergola

A substantial attached pergola creates a strong architectural extension of the rear living space.

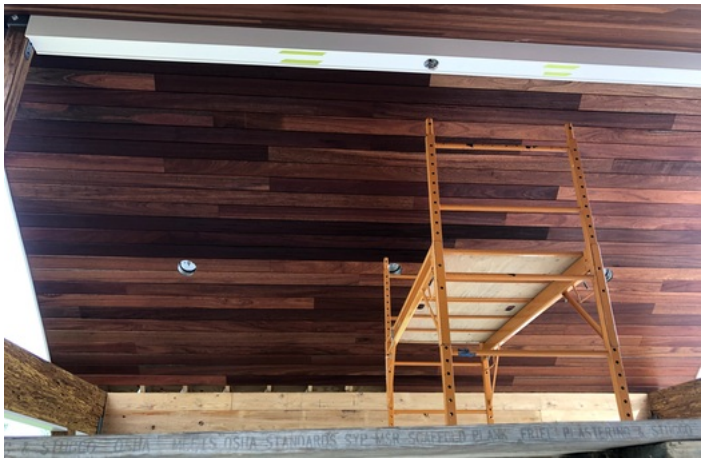

PROCESS

Exterior wood structures — from start to finish

A complete exterior project shown through construction, installation and final architectural finish.

01 — Framing & Preparation

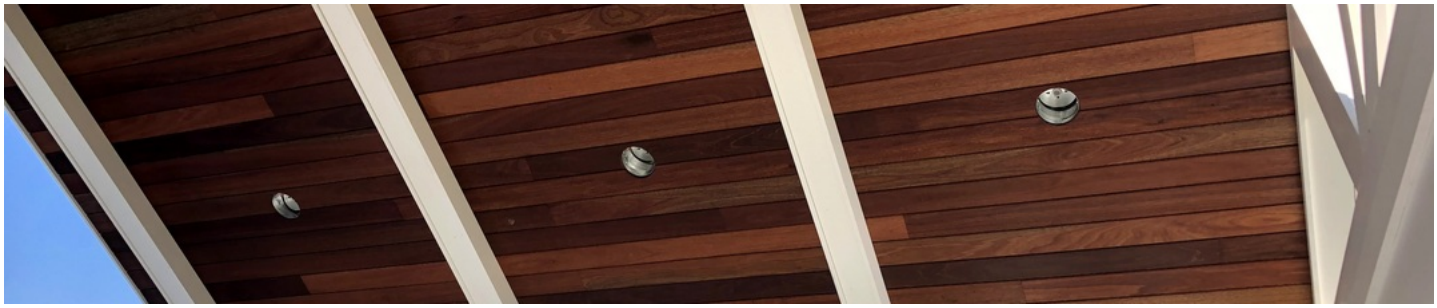

02 — Ceiling Installation

03 — Structure & Finish Progress

04 — Completed Pavilion

05 — Finished Ceiling Detail

SELECTED WORK

SPECIALTY WORK

Selected custom installations showcasing versatility, precision and architectural finish.

Custom Glass & Trim Detail

Detailed stair trim paired with glass railing for a clean, contemporary architectural finish.

Custom Wine Rack Installation

Custom wood wine storage installed with careful alignment, spacing and finish detail.

Custom Wood Slat Ceiling

Wood slat ceiling work adds warmth, rhythm and a distinctive architectural feature.

Custom Columns & Architectural Trim

Columns, ceiling details and surrounding trim come together in a cohesive custom finish.

LET'S BUILD SOMETHING WELL FINISHED.

Available for subcontracting opportunities, finish-carpentry packages and project discussions with builders, general contractors, developers and property-management teams.
